How effective are anti-obesity campaigns?

July 9, 2012, Boston Globe

By Kay Lazar

Mary Regan has witnessed a transformation outside the front door of her Union Square office in Somerville — new “corrals” provide more parking spaces for bicyclists, angled parking has replaced parallel parking ... [Continue reading](#) →

Most kids don't get enough PE, says study

July 10, 2012, CNN

Most schools in the United States are not offering children the suggested amount of physical education, according to a new study.

The study, conducted by Bryan McCullick, a kinesiology professor at the University of Georgia, examined ... [Continue reading](#) →

JHGCCO releases second round RFA for rapid response studies

The Johns Hopkins Global Center on Childhood Obesity (JHGCCO) released its second round Request for Applications (RFA) on July 1, awarding research grants for “rapid response” studies.

JHGCCO seeks to jumpstart systems-oriented childhood obesity research in a rapidly-changing physical or policy environment ... [Continue reading](#) →
